

# My Best Friend

*From Swing Thing*

My best friend has floppy ears,  
My best friend has hairy toes,  
My best friend has a slobbery tongue,  
My best friend has a cold wet nose.

First thing in the morning when I'm fast asleep in bed,  
Beside me on the pillow appears a hairy head,  
Big brown eyes, and soft brown ears and whiskers on his chin, He  
looks at me with furrowed brow, hoping to get in.

My best friend has floppy ears,  
My best friend has hairy toes,  
My best friend has a slobbery tongue,  
My best friend has a cold wet nose.

(Instrumental)

My best friend has floppy ears,  
My best friend has hairy toes,  
My best friend has a slobbery tongue,  
My best friend has a cold wet nose.

When I get home from school at the end of the day  
He's sitting on the front porch ready to play,  
Romping through the vege garden, mud flies everywhere,  
I worry what my mum will say but pup doesn't care.

My best friend has floppy ears,  
My best friend has hairy toes,  
My best friend has a slobbery tongue,  
My best friend has a cold wet nose.

(Instrumental)

My best friend has floppy ears,  
My best friend has hairy toes,  
My best friend has a slobbery tongue,  
My best friend has a cold wet nose.
