

# Little Star

*From Splish Splash Splosh*

Stars high, up in the night sky,  
All alone, up in the night sky,  
You look so small from here,  
Far away not so near,  
Little star, up in the sky.

I am safe, here in the darkness,  
While you glow, creating warmness,  
I know I have nothing to fear,  
With my family sleeping near,  
Little star, up in the sky.

Little star, up in the night sky,  
Shining near, the moon up so high,  
Dance and sing shine so bright,  
I'll see you tomorrow night,  
Little star, up in the sky,  
Little star, up in the sky.
